

Assignment 1: Personal CV Page

Name: Hussnain Ali

Roll Number: SP24-BCS-156

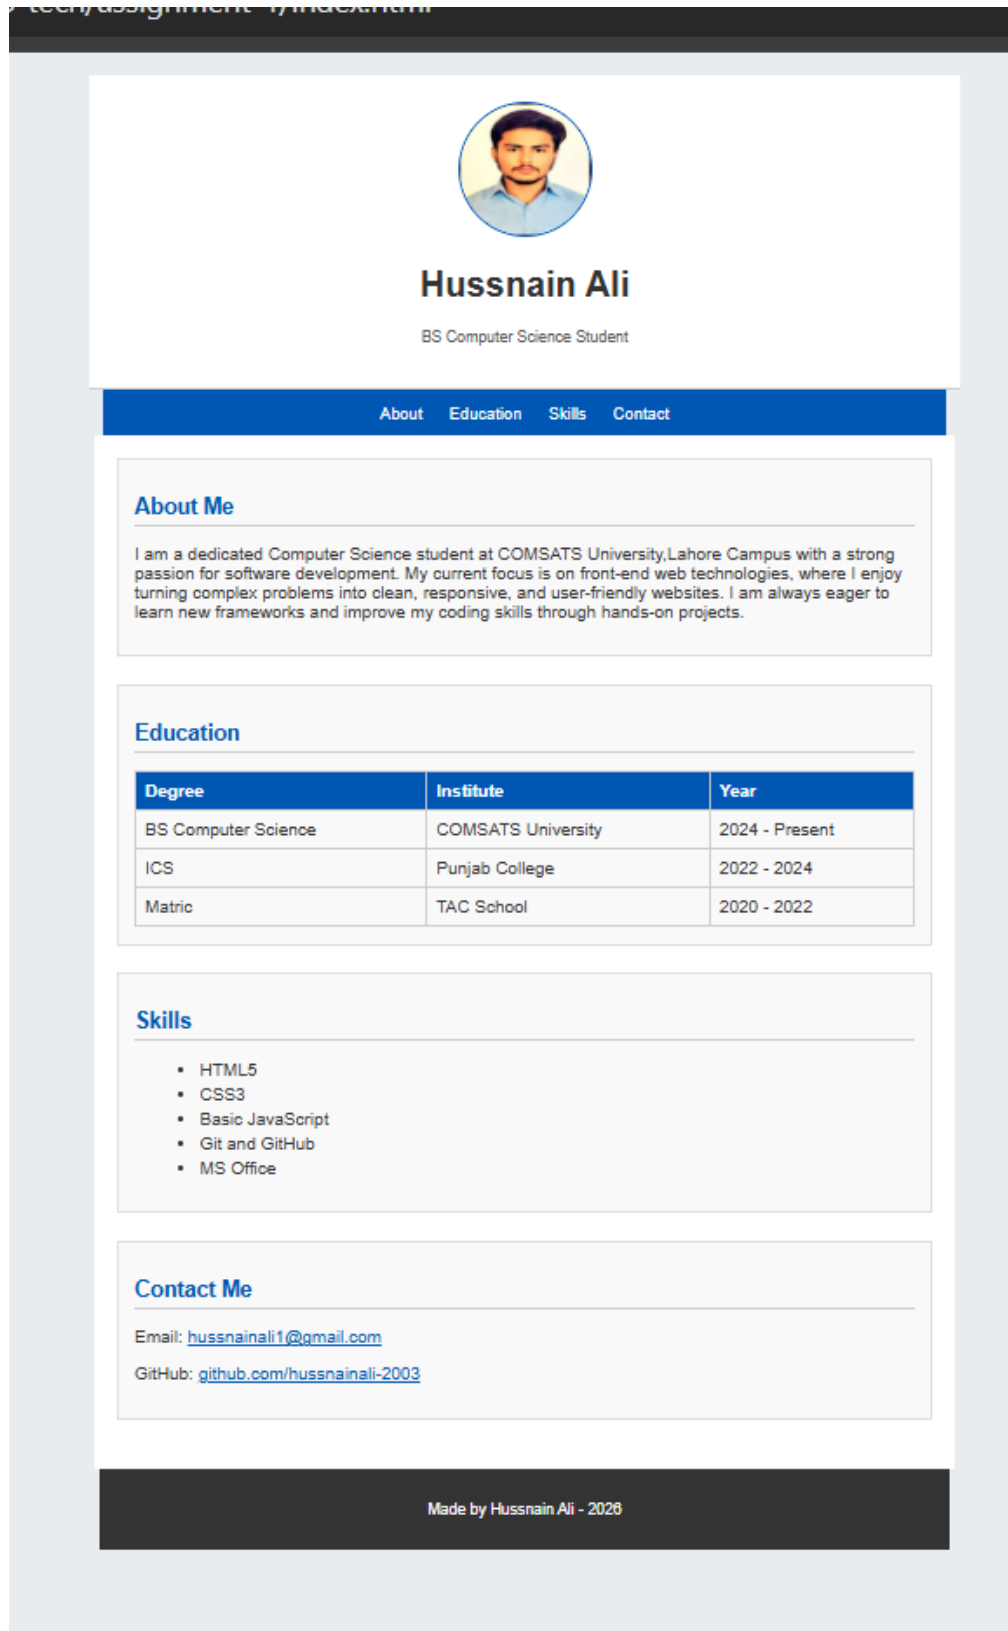

Course: FA26 Web Technologies

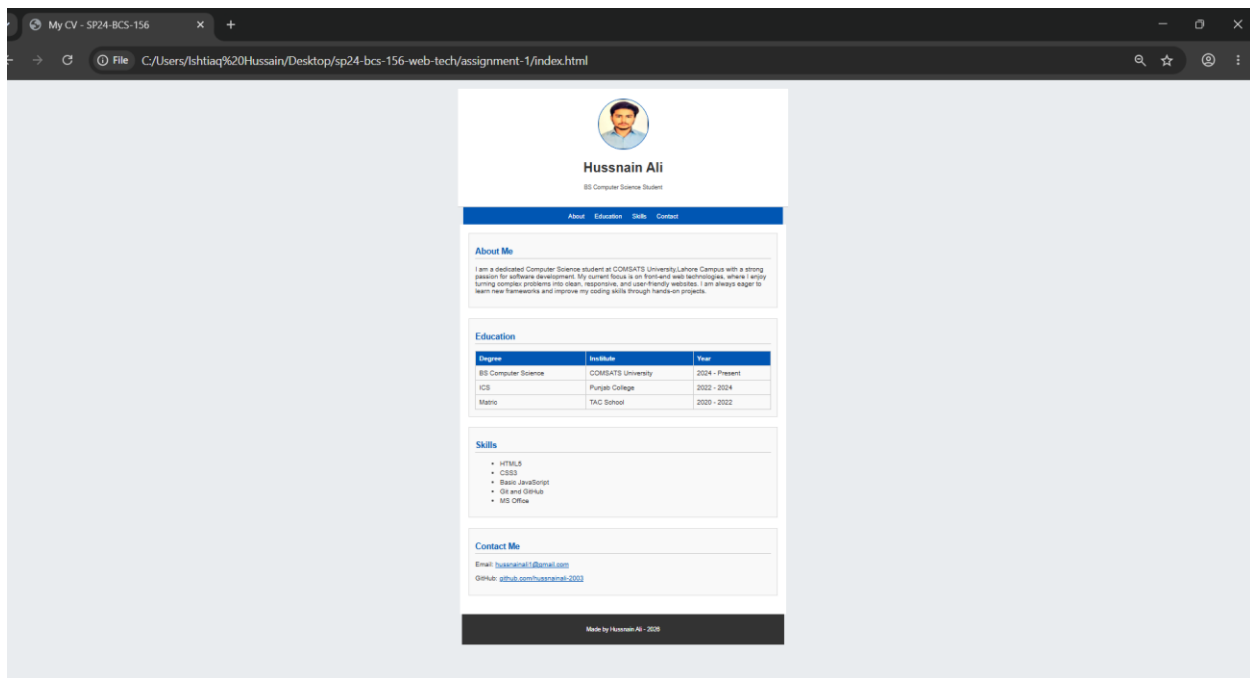

Task Statement:

Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS.

1. Your page must include, at minimum:
2. A header with your name, a short professional tagline, and a photo.
3. An "About Me" section.
4. An "Education" section listing your academic history in a semantic list or table.
5. A "Skills" section.
6. A "Contact" section with a real link and at least one social/portfolio link.
7. Correct use of semantic HTML5 elements throughout (<header>, <nav>, <main>, <section>, <footer>).
8. Styling entirely in a separate styles.css file using the box model correctly (margins, padding, borders).

      <p>
        I am a dedicated Computer Science student at COMSATS University, Lahore Campus
        with a strong
        passion for software development. My current focus is on front-end web
        technologies, where I
        enjoy turning complex problems into clean, responsive, and user-friendly
        websites. I am
        always eager to learn new frameworks and improve my coding skills through
        hands-on projects.
