CSC336 Web Technologies - Assignment 2

Student: Hussnain Ali
Roll Number: SP24-BCS-156

Chosen Reference Site

Site name: Tesla Inc.

Full URL: https://www.tesla.com/

Reference Homepage Screenshot

Project files

- `index.html` - responsive storefront and product listing
- `product.html` - Model S Plaid product details
- `style.css` - custom styling and responsive rules
- `screenshot.png` - screenshot of the reference website

- `assignment-2-completion-report.pdf` - completion report

Implementation summary

This is a static website built with HTML and CSS. Bootstrap 5 is used for the responsive navigation bar and product grid. The catalog displays nine products. Its grid shows one column on phones, two columns on tablets, and three columns on desktop screens. The cart buttons are visual only and no JavaScript is used.
